

September 30, 2013

Board of Directors and Board of Investors  
Tobacco Settlement Endowment Trust Fund

We have audited the financial statements of the governmental activities and permanent fund of the Tobacco Settlement Endowment Trust Fund (the "Fund") for the year ended June 30, 2013. Professional standards require that we provide you with information about our responsibilities under auditing standards generally accepted in the United States and *Government Auditing Standards* as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter to you dated June 27, 2013. Professional standards also require that we communicate to you the following information related to our audit.

### **Significant Audit Findings**

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Fund are described in Note 2 to the financial statements. The Fund adopted new accounting guidance, Statement No. 63 of the Governmental Accounting Standards Board (GASB), *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, during the year ended June 30, 2013. We noted no transactions entered into by the Fund during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

### **Significant Audit Findings, Continued**

#### *Qualitative Aspects of Accounting Practices, Continued*

In June 2011, GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* (GASB 63). The objective of GASB 63 is to provide guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. The pronouncement will improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on a government's net position. It alleviates uncertainty about reporting those financial statement elements by providing guidance where none previously existed. The provisions of this statement are effective for financial statements for periods beginning after December 15, 2011. The Fund adopted GASB 63 effective July 1, 2012. The adoption of the statement required the Fund to adopt the term "net position" as required. In addition, as required by GASB 63, the Fund determined that as of June 30, 2013 and 2012, there were no items of deferred outflows of resources or deferred inflows of resources, as presently defined, to be reported.

In March 2012, GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB 65). The objective of GASB 65 is to establish accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets or liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The provisions of this statement are effective for financial statements for periods beginning after December 15, 2012. The Fund has not determined the effects, if any, of implementing GASB 65.

In June 2012, GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68). The primary objective of GASB 68 is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. GASB 68 establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. This statement is effective for financial statements for periods beginning after June 15, 2014. The Fund has not determined the effects, if any, of implementing GASB 68.

### **Significant Audit Findings, Continued**

#### *Qualitative Aspects of Accounting Practices, Continued*

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the estimate of the fair value of investments was:

Management's estimate of the market value of investments is based on the investment custodian. We evaluated the key factors and assumptions used to develop the estimate of the market value of the investments in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

#### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. The attached schedule of uncorrected misstatements is not considered material to the June 30, 2013, financial statements.

#### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

### **Significant Audit Findings, Continued**

#### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated September 30, 2013.

#### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the Fund’s financial statements or a determination of the type of auditors’ opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

#### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Fund’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

#### *Other Matters*

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

**Other Required Communications**

We as independent auditors are required to:

- a. Communicate significant deficiencies and material weaknesses in internal control to the audit committee or its equivalent.
- b. Report directly to the audit committee (or equivalent) any fraud that causes a material misstatement of the financial statements and any fraud involving senior management. Fraud perpetrated by lower-level employees is also reported if it resulted in an individually significant misstatement.
- c. Report illegal acts that come to our attention (except those that are clearly inconsequential).

We have nothing to report.

This information is intended solely for the use of the Board of Directors and Board of Investors, management of the Fund, and the State of Oklahoma and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

FINLEY & COOK, PLLC  
CERTIFIED PUBLIC ACCOUNTANTS
