OKLAHOMA TOBACCO SETTLEMENT ENDOWMENT TRUST (TSET)

The Oklahoma Tobacco Settlement Endowment Trust (TSET) serves as a partner and bridge builder for organizations working towards shaping a healthier future for all Oklahomans. TSET provides leadership at the intersections of health by working across the state, by cultivating innovative and life-changing research, and by working across public and private sectors to develop, support, implement and evaluate creative strategies to take advantage of emerging opportunities to improve the public's health.

Oklahoma and 45 other states sued Big Tobacco for the damage it caused them. As the case was scheduled to go to trial, Big Tobacco and the participating states reached a compromise known as the "Master Settlement Agreement." As part of this settlement, Big Tobacco is required to make annual payments to participating states that will continue as long as cigarettes are sold nationally. Each annual payment is split three ways:

75%

Tobacco Settlement Endowment Trust

18.75%

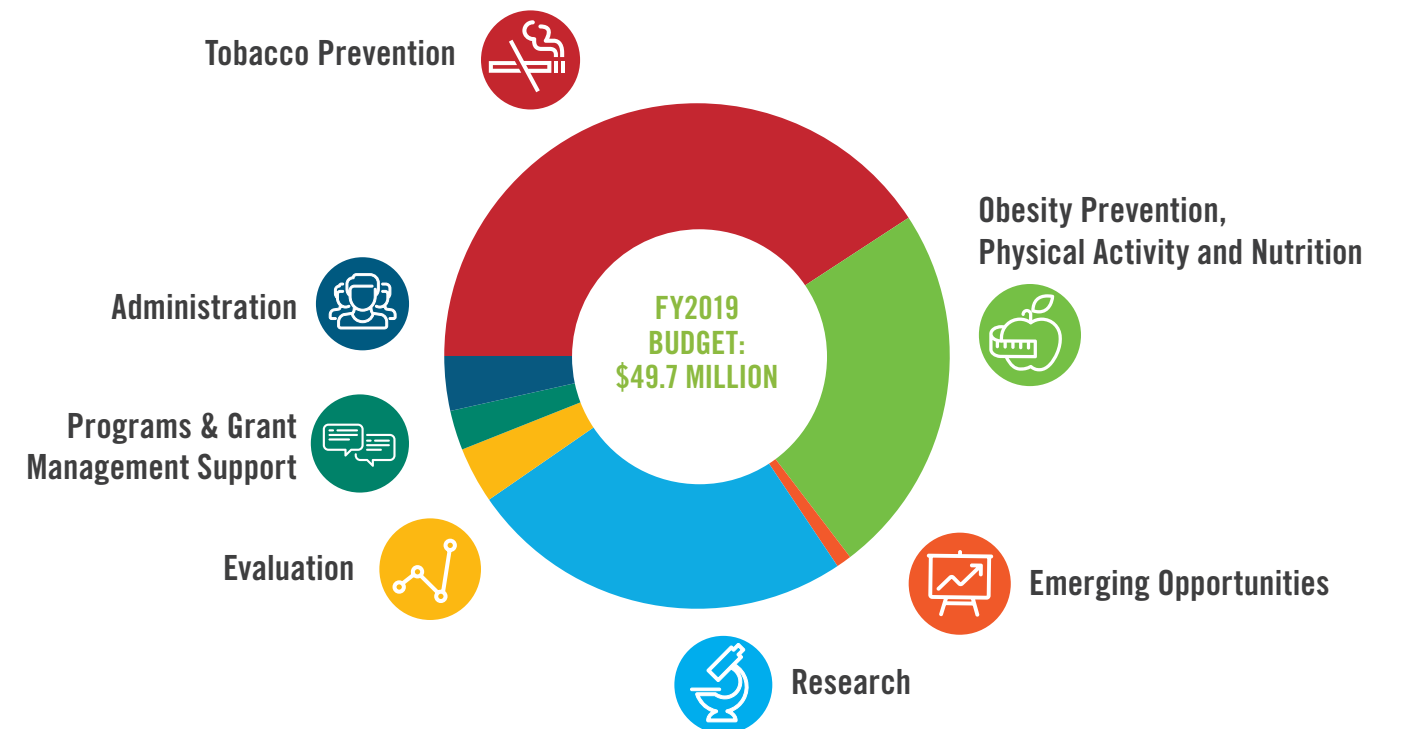

The Legislature

6.25%

Attorney General's Office

Created by voters in 2000, TSET safeguards the majority of the annual payments for health-related efforts. The money is invested by an independent Board of Investors. Only the earnings from these investments are spent — to fund grants that reduce cancer, heart disease and stroke in Oklahoma.

HEALTHY LIVING PROGRAM

TSET Healthy Living Program grants are community-based grants that seek to prevent and reduce tobacco use and obesity through a comprehensive approach that includes strategic actions and partnerships with businesses, cities, governments, community institutions, organizations and schools.

STATEWIDE GRANTS

To address tobacco use and obesity, TSET provides grants to health systems throughout the state.

- Oklahoma Hospital Association to work with health care providers to educate them about cessation services available to patients.
- Oklahoma Department of Mental Health and Substance Abuse Services to work with contract providers of behavioral health services to make facilities tobacco free.
- Oklahoma Health Care Authority to increase the number of calls to the Helpline through outreach efforts and training services.
- Oklahoma Medical Loan Repayment Program to recruit primary care physicians to medically underserved areas through a partnership between TSET and the Physician Manpower Training Commission.
- The Oklahoma State Medical Authority Residency Program supported physician training residency programs in rural and medically underserved areas from FY2016 to FY2018. Because of the critical funding provided by TSET during this period, these residency programs are now self-sustaining.
- The Free The Night grant offers education and support to bars and nightclubs wanting to voluntarily become a smokefree establishment.

HEALTH COMMUNICATION

Customized public education interventions are proven to be one of the most effective strategies to reduce tobacco use and promote healthy behaviors. Through rigorous evaluation, TSET public education interventions are proven to be effective in changing knowledge, attitudes and behaviors to support healthy lifestyle choices by Oklahomans. The Oklahoma Tobacco Helpline is a free service available 24/7 that provides the tools and support needed to quit tobacco. To date, the Helpline has served over 400,000 Oklahomans.

RESEARCH

TSET works to promote new scientific discoveries and give Oklahomans access to cutting-edge cancer treatments by funding three major research programs:

Stephenson Cancer Center: \$27.5 million over 5 years

Oklahoma Tobacco Research Center (OTRC): \$19 million over 5 years

Oklahoma Center for Adult Stem Cell Research (OCASCR): \$17 million over 5.5 years

Thanks in part to TSET funding, the Stephenson Cancer Center was awarded NCI designation in 2018. With this award, the Stephenson Cancer Center joins an elite group of 70 NCI-Designated Cancer Centers nationwide. The Stephenson Cancer Center is the only NCI-Designated Cancer Center in Oklahoma.

INCENTIVE GRANTS

The TSET Healthy Incentive Program promotes wellness by offering grants to schools, school districts and local communities that adopt health-promoting policies and strategies. They are designed to encourage healthy eating, physical activity and tobacco-free lifestyles.

Grant funds, often leveraged with dollars from other organizations, have helped communities build basketball courts, purchase playground equipment, provide park enhancements and fund numerous other projects that promote the health and wellness of Oklahomans. In public schools throughout Oklahoma, incentive grants have been used to purchase Automated External Defibrillators (AEDs), physical education curricula and equipment, active learning labs and to improve playgrounds.

TSET'S MISSION: TO REDUCE PREVENTABLE DEATH IN OKLAHOMA.

STATEWIDE SMOKEFREE LAW

**77% OF OKLAHOMANS
FAVOR A LAW MAKING
ALL PUBLIC PLACES SMOKEFREE.**

TOBACCO 21

**74% OF OKLAHOMANS FAVOR
RAISING THE MINIMUM AGE
TO PURCHASE TOBACCO TO 21.**

SMOKEFREE CARS FOR KIDS

**83% OF OKLAHOMANS FAVOR
A LAW PROHIBITING SMOKING IN
VEHICLES WHEN CHILDREN 16 OR
YOUNGER ARE PRESENT.**

BECAUSE OF TSET,

OKLAHOMA SMOKING RATES HAVE DROPPED

10X FASTER
than similar states.*
