

Tobacco Settlement Endowment Trust Fund

*The Auditors' Communication with
Those Charged with Governance*

June 30, 2018

September 28, 2018

Board of Directors and Board of Investors
Tobacco Settlement Endowment Trust Fund

We have audited the financial statements of the governmental activities and permanent fund of the Tobacco Settlement Endowment Trust Fund (the "Fund") for the year ended June 30, 2018. Professional standards require that we provide you with information about our responsibilities under auditing standards generally accepted in the United States and *Government Auditing Standards* as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter to you dated March 27, 2018. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Fund are described in Note 2 to the financial statements. The Fund adopted new accounting policies during the year ended June 30, 2018. We noted no transactions entered into by the Fund during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

In June 2015, the Governmental Accounting Standards Board issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75). GASB 75 addresses employer and governmental non-employer contributing entities' accounting and financial reporting when participating in an OPEB plan. This statement requires proper recognition of OPEB liabilities by employers and requires a more comprehensive measure of OPEB expense. More robust disclosures will also improve transparency and accountability. GASB 75 is effective for financial statements for the periods beginning after June 15, 2017. The Fund adopted GASB 75 effective July 1, 2017, for the June 30, 2018, reporting year. The adoption of GASB 75 resulted in additional disclosures but did not have a significant impact on the financial statements.

Significant Audit Findings, Continued

Qualitative Aspects of Accounting Practices, Continued

In March 2016, GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements* (GASB 81). GASB 81 provides recognition and measurement guidance for situations in which a government is one of the beneficiaries of an irrevocable split-interest agreement. Irrevocable split-interest agreements are a type of giving by a donor to provide resources to two or more beneficiaries, including governments. GASB 81 provides the recognition and reporting requirements applicable when a government is one of the parties to such an agreement. The Fund adopted GASB 81 effective July 1, 2017. The adoption of GASB 81 did not have a significant impact on the financial statements.

In November 2016, GASB issued Statement No. 83, *Certain Asset Retirement Obligations* (GASB 83). An asset retirement obligation (ARO) is a legally enforceable liability associated with the retirement of a tangible capital asset. GASB 83 establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. This Statement requires that recognition occur when the liability is both incurred and reasonably estimable. GASB 83 also requires disclosure of information about the nature of a government's AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is permitted. The Fund does not expect GASB 83 to have a significant impact on the financial statements.

Significant Audit Matters, Continued

Qualitative Aspects of Accounting Practices, Continued

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities* (GASB 84). GASB 84 establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. GASB 84 describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. GASB 84 also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. Events that compel a government to disburse fiduciary resources occur when a demand for the resources has been made or when no further action, approval, or condition is required to be taken or met by the beneficiary to release the assets. The requirements of GASB 84 are effective for reporting periods beginning after December 15, 2018. Earlier application is permitted. The Fund does not expect GASB 84 to have a significant impact on the financial statements.

In March 2017, GASB issued Statement No 85, *Omnibus 2017* (GASB 85). GASB 85 clarified several practice issues identified during the application of earlier GASB pronouncements. GASB 85 addresses topics including the blending of component units, goodwill and negative goodwill, fair value measurement and application, employer accounting and reporting for pensions and OPEB, and reporting by OPEB plans. The Fund adopted GASB 85 effective July 1, 2017. The adoption of GASB 85 did not have a significant impact on the financial statements.

Qualitative Aspects of Accounting Practices, Continued

In May 2017, GASB issued Statement No. 86, *Certain Debt Extinguishment Issues* (GASB 86). GASB 86 provides guidance regarding the in-substance defeasance of debt. Normally, a government will issue new debt at favorable rates and place the proceeds in trust to eliminate the liability of an existing debt. GASB 86 provides accounting and reporting guidance for situations where a government irrevocably sets aside cash and other assets to defease an existing debt. Guidance also addresses prepaid insurance related to extinguished debt and the financial valuation and disclosure of other assets used to defease debt. The Fund adopted GASB 86 effective July 1, 2017. The adoption of GASB 86 did not have a significant impact on the financial statements.

In June 2017, GASB issued Statement No. 87, *Leases* (GASB 87). GASB 87 defines a lease as a contract that conveys control of the right to use another entity's nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction. GASB 87 improves accounting and financial reporting for leases by governments by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB 87, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The Fund has not determined the impact of GASB 87 on the financial statements.

Significant Audit Matters, Continued

Qualitative Aspects of Accounting Practices, Continued

In April 2018, GASB issued Statement No. 88, *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements* (GASB 88). GASB 88 improves disclosures related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. GASB 88 defines debt as a liability that arises from a contractual obligation to pay cash (or other assets) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. GASB 88 also requires additional essential information related to debt be disclosed in the notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default, significant termination events, and significant acceleration clauses. The requirements of GASB 88 are effective for reporting periods beginning after June 15, 2018. The Fund does not expect GASB 88 to have a significant impact on the financial statements.

In June 2018, GASB issued Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period* (GASB 89). GASB 89 enhances the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period. This statement supersedes paragraphs 5–22 of Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles. The requirements of GASB 89 are effective for reporting periods beginning after December 15, 2019. The Fund does not expect GASB 89 to have a significant impact on the financial statements.

Significant Audit Matters, Continued

Qualitative Aspects of Accounting Practices, Continued

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the estimate of the fair value of investments was:

Management's estimate of the market value of investments is based on the investment custodian. We evaluated the key factors and assumptions used to develop the estimate of the market value of the investments in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. The attached schedule of uncorrected misstatements is not considered material to the June 30, 2018, financial statements.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Significant Audit Matters, Continued

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 28, 2018.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the Fund’s financial statements or a determination of the type of auditors’ opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Matters or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Fund’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Other Required Communications

We as independent auditors are required to:

- a. Communicate significant deficiencies and material weaknesses in internal control to the audit committee or its equivalent.
- b. Report directly to the audit committee (or equivalent) any fraud that causes a material misstatement of the financial statements and any fraud involving senior management. Fraud perpetrated by lower-level employees is also reported if it resulted in an individually significant misstatement.
- c. Report illegal acts that come to our attention (except those that are clearly inconsequential).

We have nothing to report.

This information is intended solely for the use of the Board of Directors and Board of Investors, management of the Fund, and the State of Oklahoma and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

Finley + Cook, PLLC
